

- **What is KneoWorld?**

KneoWorld is a technology-based learning program founded on standards and measurements, that engages learners at varying levels to help them perform to their potential. Through a series of episodes and learning games, students are transported to another world where learning becomes an adventure.

KneoWorld's team of curriculum, assessment, and special education experts have integrated the core skills into a program that makes learning fun and appealing. There are specific learning outcomes intended for each task and as the learner plays, the embedded analytics monitor growth and proficiency.

- **Is KneoWorld aligned with curriculum?**

KneoWorld tasks are mapped to CCSS and the 4Cs. They are designed to support learning categories including Literacy, Math, Science, Art, Critical Thinking and Life Skills.

- **How does KneoWorld address reading comprehension and assessment criteria?**

Children join the intrepid team of KneoExplorers and are instantly engaged with them in their episodic adventure about rediscovering earth 100 years in the future. Learners can read the comic-book episodes independently, in pairs or teacher assisted and there is an audio storytelling option for non-readers.

Educational games are threaded through each episode that are designed to help students focus, persevere and learn at their own pace.

KneoWorld learning programs are mapped and measured providing immediate analytics via the Educator Dashboard that allow teachers, principals and parents to monitor individual student progress in six learning categories.

- **Do KneoWorld programs work on all devices, operating systems, and browsers?**

You can access KneoWorld from any device including desktops, laptops, tablets, and smartphones. It is a safe online educational platform and not available as an App.

- **Is KneoWorld content safe and secure?**

Yes. All KneoWorld programs are US COPPA compliant and there are no pop-up ads and no links to external sites.

- **How does KneoWorld work in class?**

KneoWorld is versatile and easy to integrate into curriculum. The subject categories and detailed learning outcomes make it clear and easy for the teacher to integrate the content into specific lesson plans. Teachers choose student skill level and the specially curated programs are matched to the learner level. Programs are organized by learning outcome and category: Literacy, Math, Science, Critical Thinking, Art, and Life Skills.

- **How often does KneoWorld update its program content?**

Updating content is ongoing. KneoWorld relies on our clients for feedback for continuous improvement and expansion. Our team of pedagogues, curriculum experts, writers, and graphic artists are always developing and designing new games, additional stories, more extensive analytics and expanding programs for all students. We welcome new ideas and suggestions!

- **What does KneoWorld professional development look like?**

Although KneoWorld is designed intuitively our team of educational experts comes to your school to walk the teachers and users through the programs. We will tailor the professional development to your school's needs. We use the "Teach the Teacher" model and are always available to provide support.

- **Is KneoWorld suitable for IEP's?**

Absolutely! KneoWorld supports individualized learning and enhances classrooms adapting to UDL, differentiated instruction, and personalized learning.

- **What if I need customer support?**

We are here to help. We support the client through demos and professional development workshops. If you are having any technical difficulties, you can reach us at support@KneoWorld.ph or call +63 (0) 917 314 1782.
